Urban Vibe Co. Shopify Store Documentation

Section 1: Introduction

- Q1: What is the main purpose of your Shopify store?

The main purpose of my Shopify store, Urban Vibe Co., is to sell affordable and stylish lifestyle accessories, specifically targeting university students and young adults. The store focuses on three main product categories: caps, wallets, and sunglasses.

These products are selected to match the fashion preferences and daily needs of young people who are looking for trendy yet budget-friendly accessories. The store is designed to be clean, modern, and easy to navigate, with a mobile-friendly layout, announcement bar, and secure checkout system. The homepage has been fully developed.

Section 2: Software Requirements

- Q2: List and explain at least five functional requirements for your Shopify store.
 - Product Browsing: Customers can view product details including name, description, price, and images.
 - Shopping Cart: Users can add products to cart, view selected items, and modify quantities.
 - User Registration & Login: Customers can create an account, log in, and track orders.
 - Order Placement & Checkout: Supports full order process including billing and Cash on Delivery.
 - Product Categorization: Products are grouped into collections like Caps, Wallets, and Sunglasses.
- Q3: Identify and explain at least four non-functional requirements.
 - Performance: Website loads quickly (under 3 seconds).
 - Security: Customer data is protected via HTTPS and Shopify's security features.
 - Usability: Mobile-responsive and user-friendly interface.
 - Availability: Store accessible 24/7.

Section 3: System Architecture

- Q4: Describe the architecture of your Shopify store.

The Urban Vibe Co. Shopify store uses Shopify's cloud-based infrastructure with:

Frontend:

- Theme Used: Taste (free Shopify theme)
- Technologies: HTML, CSS, Liquid
- Features: Homepage, product pages, cart, checkout, login/register pages
- Customization: Done via Shopify Theme Editor

Backend:

- Admin dashboard for product, order, and customer management
- Inventory tracking and built-in analytics

APIs & Services:

- Shopify APIs handle product catalog, cart, checkout
- Manual Cash on Delivery enabled

Hosting & Security:

- Hosted on Shopify with HTTPS enabled and automatic updates.

Section 4: Tools and Technologies

- Q5: What tools and technologies will you use for designing, developing, and managing your Shopify store?
- Shopify Platform: For store setup, management, and hosting
- Shopify Theme Editor: To customize homepage and navigation
- Liquid: Shopify's templating language
- Google Chrome/Mobile Devices: For testing
- Unsplash/Pexels: For free, high-quality images

Section 5: Testing Strategy

- Q6: Outline the testing strategy you will follow.
- Functional Testing: Product listing, cart, checkout, login/register
- Usability Testing: Layout clarity, navigation ease
- Responsive Testing: Mobile compatibility
- Compatibility Testing: Works on Chrome, Firefox, Safari
- Performance Testing: Ensured fast loading
- Order Flow Testing: Simulated end-to-end purchase with Cash on Delivery

Section 6: Deployment Plan

- Q7: Explain how you plan to deploy your Shopify store.

Steps:

1. Finalized store settings (Urban Vibe Co.)
2. Applied and customized Taste theme
3. Added products and organized into collections
4. Added store policies and pages
5. Enabled customer accounts (login/create account pages active)
6. Configured manual payments (Cash on Delivery)
7. Tested order process
8. Disabled password to go live
9. Shared public URL

Section 7: Maintenance and Future Enhancements

- Q8: What kind of maintenance activities will be necessary post-launch?

- Regularly update inventory
- Monitor and fulfill orders
- Provide customer support
- Track performance with Shopify Analytics
- Apply theme/app updates
- Manual data backup

- Planned Future Enhancements

- Add new categories like watches or bags
- Enable online payment (Easypaisa/JazzCash)
- Add search bar
- Customer review system
- Discount codes and promotional campaigns
- Consider mobile app in future

Section 8: Challenges and Limitations

- Q9: Discuss the challenges faced during development and limitations of the current version.

Challenges:

- Limited customization in free theme
- Learning Shopify tools (Liquid, blocks)
- Manual Cash on Delivery management
- Image consistency issues
- Paid apps required for some features

Limitations:

- No online payment integration

- No product reviews
- Basic SEO setup
- No search functionality
- Basic policy templates used

Section 9: About Us and Contact Page

- **About Us Page:**

Urban Vibe Co. is a lifestyle accessory brand focused on delivering trendy, affordable items tailored to the tastes of university students and young adults. Our aim is to make everyday fashion expressive, accessible, and practical through carefully curated items such as sunglasses, caps, and wallets.

The About Us page has been added to the store to help visitors understand our brand story and mission.

- **Contact Page:**

A Contact Us page has been created to allow customers to reach out with inquiries or support requests. This includes a contact form and store email address, making communication simple and direct for all users.
